

## Zimbra IMAP on the iPhone

Follow the instructions below to set up IMAP access on the iPhone.

NOTE: Please use your name not Buff McCree and bmccree.

Tap Settings.

Tap Mail, Contacts, Calendars.

Tap Add Account.

Tap Other.

Enter your Name: Buff McCree

Enter your email Address: BMcCree@uaex.edu

Enter your Password: \*\*\*\*\*

Use the Description field to label the account, e.g., UAEX Mail.

Tap the Save button in the upper-right corner of the screen to move to the New Account dialog.

Make sure IMAP is highlighted.

Name, Address, and Description should be filled in.

Scroll down and enter the following values for your Incoming Mail Server:

Host Name: zmail.uaex.edu

User Name: bmccree

Password: This field is pre-populated with your password.

Scroll down and enter the following values for your Outgoing Mail Server:

Host Name: zsmtp.uaex.edu

User Name: bmccree

Password: Your Zimbra password

Tap the Save button in the upper-right corner of the screen.
