Thank you for choosing the AOS Summer Day Camp program. We have a great season lined up for your campers. Whichever session you have selected, your campers will have the opportunity to investigate topics designed to engage, inform, and challenge them while having fun, making new friends and creating memories that can last a lifetime. Using an experiential learning model, we will explore the world around us in a dynamic, hands-on way that brings ideas to life.

In addition to the different session themes, each camp offers your children the opportunity to develop skills they can use throughout their lives such as communication, decision making and team work.

Our goal is to provide your children with a quality camping experience. If you have any questions or concerns, please bring them to our attention. Again, thank you for choosing the AOS Summer Day Camp program.

Sincerely,

Mike Simmons
AOS Summer Day Camp Coordinator

SESSION THEMES

Outdoor Adventure - Do you seek out adventure, love the thrill of new and exciting experiences? Well, we have a camp just for you. Fast paced, high energy activities are the order of the day for this camp. Rock climbing on our 40 foot outdoor tower, riding on our zip line through the trees, orienteering, and canoe racing are just a few of the activities we have in store for our camper. Come have an adventure.

The "Natural State" of Science - If you like discovering the wonders of nature, then this is the camp for you! Hiking through the woods, exploring streams, and digging in the dirt are just a few ways we will experience the amazing world of science here in the Natural State. Topics will include reptiles and amphibians, plants, insects, mammals, birds, geology and astronomy. It's a natural for a good time.

Teen Camp - This camp is for 13-15 year olds who have "aged out" of the regular day camp program but still want to have an engaging, fun and active summer experience. This camp will feature more age-appropriate activities and challenges, including a full day in our ExCEL program. For more details see [www.arkansas4hcenter.org/excel/](http://www.arkansas4hcenter.org/excel/). Our teen campers will also have the opportunity to earn an ATV Safety certification. For more information on ATV Safety see [http://www.uaex.edu/4h-youth/activities-programs/atv-safety.aspx](http://www.uaex.edu/4h-youth/activities-programs/atv-safety.aspx). Don't miss out on this exciting opportunity for your teens.
**Science in Motion** - If you like to investigate, discover, explore and experiment, then this camp is for you. We will use everyday items to answer questions such as 'can you create a battery out of lemons' or 'can you make a rocket out of a 2 liter bottle'. Add our regular "core" activities of canoeing, rock climbing, and daily swim time, and you have a great opportunity to combine fun, friendship, and learning.

**Wilderness Skills** - Living in the Arkansas provides us with many chances to go out and explore nature. Have you ever wanted to learn how to backpack, camp, cook a meal over an open fire, or even how to survive in the wilds? If so, then you should sign-up for Outdoor Adventures. We will learn about tools and techniques for navigating, surviving and thriving in the woods. We will also learn about archery, animal identification, and fishing along with rock climbing, canoeing and hiking. It's going to be Wild!

**Creativity Camp** - If you like putting things together, using your hands and being creative, then there is only one place to be this summer: Creativity Camp! We will make rafts, crafts, toys and great memories. Everything will be provided, so no need to run down to the hardware store. Fun and creativity go hand-in-hand in this camp.

**Sports of All Sorts** - Come play all day! Whether it’s Ultimate Frisbee, disc golf, kickball, water balloon volleyball, pigball, gaga ball or other games from around the world, this camp emphasizes cooperation, sportsmanship, communication, self-esteem, and fitness. If your kiddos like to play sports and games of all kinds, then this is the camp for them.

**Makers Camp** - If you like putting things together, using your hands and being creative, then there is only one place to be this summer: Makers Camp! Using ideas from engineering to the arts, we will take on and build a wide variety of simple to complex projects that, when finished, will be useful and fun!

**CSI/Mystery Camp** - Do you like solving mysteries, riddles, puzzles or brain-teasers? Do you want to get an inside look at what is involved in using crime scene investigation techniques? Then this is where you want to be this summer. Camper will be able to indulge their Sherlock Holmes in this fun filled week.

**Greatest Hits Camp** - We have a summer's worth of great activities planned for our campers and in our last camp of the season, we are bringing out the very best. Throughout the summer we will ask every camp to vote on their favorite activities to determine the camper favorites. These activities will be what we do in our Greatest Hits camp. It promises to be an awesome time full of fun and adventure. Come see which activities made the cut.
