Identify the Frame

Front fork
Seat stay
Chain stays
Head tube
Down tube
Top tube
Seat tube
Identify the Frame

- Seat stay
- Top tube
- Head tube
- Front fork
- Chain stays
- Seat tube
- Down tube
Identify the Parts

- Tire
- Spoke
- Rim
- Chain
- Cassette
- Derailleur, rear
Identify the Parts

The **tire** is the rubber part that protects the tube and makes road contact. The **rim** is the metal part that makes contact with the brake pads. The **wheel** includes the hub, rim, and spokes.
Identify the Parts

Derailleur, front  Chain ring  Pedal  Crank arm
Identify the Parts

Derailleur, front

Chain ring

Pedal

Crank arm
Identify the Parts

- Rim
- Brake pad
- Brake caliper
- Spoke
- Tire
Identify the Parts

The **tire** is the rubber part that protects the tube and makes road contact. The **rim** is the metal part that makes contact with the **brake pads**. The **wheel** includes the hub, rim, and spokes.
Identify the Parts

- Shifting lever
- Headset
- Brake arm
- Handlebar
- Handlebar stem
- Bell
- Seat (saddle)
Identify the Parts

- Handlebar
- Handlebar stem
- Headset
- Brake arm
- Shifting lever
- Bell
- Seat
