### APAC's Three Arkansas Districts

There are 75 counties in the state of Arkansas. The Cooperative Extension Service has divided the state into three districts consisting of 25 counties each. The Community and Economic Development Division, of which APAC is a part, within the Cooperative Extension Service, has assigned a coordinator to each of the three districts. The three coordinators engage in outreach activities primarily for purposes of informing businesses, civic groups, community leaders and others about the benefits that APAC can provide those who are seeking to do business with the government. These coordinators are in regular contact with all County Extension Agents. If you would like to know more about what APAC can provide in your area, please contact your County Extension Agent or your District Coordinator.

The University of Arkansas System Division of Agriculture offers all its Extension and Research programs and services without regard to race, color, sex, gender identity, sexual orientation, national origin, religion, age, disability, marital or veteran status, genetic information, or any other legally protected status, and is an Affirmative Action/Equal Opportunity Employer.
