All meetings and activities announced in this guide are open to all youth between the ages of 5 and 19 without regard to race, color, national origin, religion, gender, or disability. Persons with disabilities who require alternative means for communication of program information (large print, audiotapes, etc.) should notify the county Extension office as soon as possible prior to the activity.
The Izard County 4-H Guide has been prepared to give you an overview of the purpose of the 4-H program as well as a brief look at the many opportunities available to your family.

We find that behind most successful 4-H members stands a 4-H parent who encourages, guides, and supports his or her child. We hope you too will become interested in the 4-H program by helping your child. Make 4-H a family affair.

4-H offers an opportunity for young people to participate in projects that help them learn how to make decisions and do tasks in the home, school, or community. Members use their head, heart, hands, and health to learn by doing.

The adults working with your local 4-H club are volunteers. They share their time, talents and caring attitudes to help create a positive learning experience for the children.

It costs nothing to join 4-H. We receive no outside funding, so we will have various fundraisers throughout the year to support our organization. The Izard County 4-H Foundation oversees the spending of funds.

Best wishes for an enjoyable 4-H learning experience! Watch your monthly newsletter for dates and prices (if any) for upcoming events.

WHAT IS 4-H?

4-H is the official youth organization of the Cooperative Extension Service, a division of the University of Arkansas. It is an informal education program for boys and girls. 4-H is conducted locally by volunteer leaders in cooperation with County Extension personnel.

4-H is young people sharing, doing, and learning together in all kinds of projects, events and activities with guidance from their families, volunteer leaders and Extension personnel. Members choose projects that fit them and the places where they live, both urban and rural. Group activities such as meetings, workshops, tours, camps, and competitive activities provide additional learning experiences.

Volunteers serve as 4-H leaders to plan and carry out organized learning experiences with youth. Many of the learning experiences are at the local club level. The many County, Regional and State activities supplement and support those activities carried out at the local level.

During club meetings, members conduct business, share ideas, learn new skills, participate in decision making, and enjoy recreational activities.

WHY AND WHEN DID 4-H ORIGINATE

4-H work, as we know it, began around 1900 as a means of reaching parents with improved farm and home practices. American farmers had experienced poor economic times for 30 years. It was risky business for them to try a new recommended farm practice. In 1902, a few school teachers developed some crop demonstrations with their students who, in turn, shared their successes with their parents.

These school projects developed into small groups covering a single topic such as beef, corn, gardening, and canning. By 1903 they were called 3-H clubs and in 1911 the name 4-H was finally adopted.

The first 4-H type club in Arkansas is reported to have been in White County in 1908. It was a corn club with 40 members. Corn clubs, cotton clubs, pig clubs and canning clubs were all in operation in Arkansas by 1914.

Have the 4-H objectives changed since the early days? Yes! Today, members are no longer limited to agriculture projects. 4-H offers the urban as well as the rural young person the opportunity to learn, to develop leadership abilities and become informed and effective citizens.
4-H AWARDS AND REWARDS
4-H offers a variety of awards and rewards such as trophies, ribbons, certificates, pins, trips and cash scholarships. In addition to these material awards are the personal rewards of accomplishment and self-satisfaction of the child by knowing that they have done their best. A special 4-H Recognition Banquet held annually honoring our 4-H members and volunteer leaders. It recognizes 4-H'ers who excel in their projects and activities. Leaders are also recognized for their contributions to 4-H.

4-H PROJECTS
A 4-H project is what a 4-H'er learns, makes or does; example: learn to grow a garden, make a dress, or train a dog. 4-H members should take at least one project each year and complete records for that project. Younger 4-H'ers should limit themselves to one or two projects per year. Older 4-H'ers may want to take three or four. The family of a 4-H’er should take an active interest in his/her project. They should assist, encourage, offer advice, but remember, the 4-H'er learns by doing.

4-H Record Books
The Arkansas 4-H Record Book is one place to show others what you have accomplished in your 4-H career. Completing the record book is much like completing a portfolio. Through your record book, you show your accomplishments and how you have developed responsibility by keeping records. Throughout your 4-H career, you will find your record books useful in evaluating past achievements and in making improvements in future plans. The Arkansas 4-H Record Book has four levels of guidelines: Cloverbud (5-8), Beginner (9-12), Intermediate (13-15), and Advanced (16-19). All four levels have specific guidelines. Report form covers are available free at our office. There will be workshops to explain more in-depth what a record book entails and to assist the families in putting together a record book.
