

Reportable Diseases of Swine

THE DISEASES LISTED BELOW ARE TO BE REPORTED IMMEDIATELY TO THE STATE VETERINARIAN'S OFFICE AND/OR USDA VETERINARY SERVICES.

Veterinarians are called upon to identify and control the escalation of infectious and zoonotic disease.

Current

- Atrophic Rhinitis of Swine
- Porcine Cysticercosis
- Porcine Brucellosis
- Transmissible Gastroenteritis (TGE)
- Enterovirus Encephalomyelitis
- Porcine Reproductive and Respiratory Syndrome (PRRS)

Proposed Additions

- Streptococcus zooepidemicus
- Porcine Epidemic Diarrhea (PED)

Please call the Arkansas State Veterinarian Office for more information at 501-823-1733 ▶ ▶ ▶
