

General	By Chad Norton and Chris Elkins. Rain from Barry varied significantly across locations but all fields received rain. The Arkansas county 2 field led the pack with 9.3", while the Clark county field was not accessible due to flood water. The rain benefited several fields and delayed irrigations. Insect pressure continues to remain low but is expected increase. Disease pressure has been minimal so far this year. Refer to table below for field specific information.		
County	Variety	Stage	General Information
Arkansas - 1	Asgrow AG46X6	R1	Received 8" rain. Initial irrigation applied 7-11. 1.5 pt. Flexstar applied 7-10.
Arkansas - 2	Pioneer P45A29L	R4	Received 9.3" rain. Insect and disease free. Looks good.
Ashley	Terral REV 48A26	R2	Received 3.95" rain. Clean. Has a chance to be very good.
Chicot	Armor 46D08	R1	Received 4.4" rain. Didn't get sprayed due to weather. Recommended 1 qt. Cornerstone + 1.3 pt. Dual Magnum.
Clark	Pioneer P48A32X	V5	Could not get to field due to water. Hopefully it's still there.
Cross	Armor 48D24	R2	Received 4.1" rain. Good growth and now has canopy. Insect and disease free.
Desha	Armor 48D24	R4	Received 2.9" rain. Looks good. Insect and disease free.
Greene	Stine 49LD02	V7	Received 3.45" rain. Excellent growth, starting to have broadleaves emerge, recommended 1 qt. Liberty.
Jackson - 1	UA 5414RR	V7	Received 3.5" rain. Starting to canopy, small areas of standing water, low insect and disease pressure.
Jackson - 2	Pioneer 47A76L	R2	Received 3" rain. Good canopy, starting to set pods low on the plant. Stinkbugs running 3/25.
Jefferson	Pioneer P43A42X	R2	Received 5.7" rain Very clean and rapidly growing. Insect and disease free.
Lawrence	Asgrow 46X6	R4	Received 1.85" rain. Looks good, blooming on last node, Lower canopy starting fill pods, Stinkbugs 2/25.
Lee	Pioneer P47T36R	R2	Received 5.5" rain. Very clean good looking field. Stinkbugs running 3/25 sweeps. Disease free.
Lonoke	Bayer CZ 4918 LL	R2	Received 3.7" rain. Morningglories emerged, Insect and disease free.
Miller	Merschman Miami 1949 LL	R2	Dryland. Received .3" rain. Started blooming with a vengeance. If we keep getting rains it could be very good for dryland.
Mississippi	Asgrow 46X6	R1	Received 4.6" rain. Looks good, very clean. Insect and disease free.
Monroe	Progeny 5414 LL	V10	Received 4.9" rain. Very close to lapping middles. Looking good.
Phillips	Stine 49LH02	R2	Dryland. Received 4.15" rain. Good growth over the past week.
Poinsett	Drewsoy 5.0	V6	Received 3.3" rain. Very clean, 7/11 applied 8oz intensity + 1pt. s-metolachlor. Poor drainage, several ditches backed up, will evaluate damage next week.

White	Terral REV 47L38	R1	Received 4.2" rain. Looks good. Very clean, insect and disease pressure remains low, however deer continue to be a nuisance.
Woodruff	Stine 51LI32	V4	Received 4" rain. Good growth, 7/10 applied 40oz Cheetah. Good control of emerged weeds, expecting to see rapid growth over the next week.
