

General	By Chad Norton and Chris Elkins. All fields received rain, although some were very little. Four fields have had irrigation terminated or will receive final irrigations this week. Insects are continuing to pop up as a couple more fields were sprayed this week. Diseases continue to remain a non-issue. Refer to table below for field specific information.		
County	Variety	Stage	General Information
Arkansas	Pioneer P45A29L	R6	Done. Waiting on harvest.
Ashley	Terral REV 48A26	R6	Received 1.7" rain. Threshold stink bugs, recommended 5.12 oz. Tundra + 1% COC. Final irrigation applied 8-29. Done.
Chicot	Armor 46D08	R5	Received .05" rain. Second irrigation applied 8-26, third 9-8 if no rain. Stink bugs running 3/25 sweeps, still clean of earworms.
Clark	Pioneer P48A32X	R5	Should have been irrigated this week. Heligen still keeping earworm under control.
Cross	Armor 48D24	R5	Received .3" rain. Late R5, low disease pressure, 2.5/25 stinkbugs. Second irrigation scheduled for 8/25.
Desha	Armor 48D24	R6	Third and final irrigation applied 8-29. Clean. Done.
Greene	Stine 49LD02	R5	Received 5.2" rain. Finally able to saturate soil according to soil probes. Early R5, Insect and disease pressure remain low.
Jackson - 1	UA 5414RR	R4	Received 1.5" rain. Applied 14oz Prevathon 8/22, excellent control of worm pressure, low disease pressure. Initial irrigation 8/26.
Jackson - 2	Pioneer 47A76L	R6	Received 1.5" rain. Insect pressure remains low, Second irrigation 8/22. Will re-evaluate next week to determine if it needs another irrigation.
Jefferson	Pioneer P43A42X	R5	Received 1.8" rain. Sixth irrigation applied 8-23, seventh 9-3 if no rain. Getting close to R6. Stink bugs running 2/25 sweeps. Disease free.
Lawrence	Asgrow 46X6	R6	Received 2.75" rain. Excellent soil moisture, irrigation terminated, Insect pressure remains low.
Lee	Pioneer P47T36R	R5	Received 1.45" rain. Third irrigation applied 8-24. Close to R6, probably one more irrigation next week to finish it off. Stink bugs running 2/25 sweeps. Disease free.
Lonoke	Bayer CZ 4918 LL	R5	Received 3.6" rain. Fourth irrigation next week if no rain. Stink bugs running 2/25 sweeps. Disease free.
Miller	Merschman Miami 1949 LL	R5	Dryland. Received .18" rain. Now running 10.45" moisture deficit, need rain. Stink bugs cleaned up from bifenthrin + acephate application 8-19.
Mississippi	Asgrow 46X6	R5	Received .4" rain. Disease and insect pressure remains low. Third irrigation scheduled for 9/4.
Monroe	Progeny 5414 LLS	R5	Received 1.65" rain. Field remains free of earworms following Heligen application. Very hard to walk through due to lodging.
Phillips	Stine 49LH02	R5	Dryland. Received 2" rain. Now running 6" moisture deficit. Remains insect and disease free.
Poinsett	Drewsoy 5.0	R5	Received 2.4" rain. Insect free. Low disease pressure, will re-evaluate irrigation needs next week. Field has not require irrigation so far this year.
White	Terral REV 47L38	R5	Received 1.9" rain, Should be R6 next week, disease and insect pressure remain low. Third irrigations scheduled for 9/6.

Woodruff	Stine 51LI32	R3	Received .75" rain. earworm pressure dropped to 1.5/25, Virus still active, Disease pressure remains low, Initial irrigation 8/26.
