**2018-19 Wheat Research
Verification Program Update**

March 8, 2019

Update No. 4

General	By Chad Norton and Chris Elkins. Winter was not over yet. Another week of cold, wet weather slowed growth and delayed herbicide and fertilizer application. Fields are holding up well despite the continued rain. Disease and insect pressure remain low.		
County	Variety	Feekes Stage	General Information
Ashley	Pioneer 26R41	5	Recent cold front slowed growth and little change was noticed from previous week.
Greene	Pioneer 26R41	3	Recommended 100lbs Urea and .9 oz. Harmony Extra + NIS. Application were delayed due to rain. Field did not yet show response to first N application. Still have a good window to apply remaining N.
