# Make your produce ARKANSAS Grown

[www.naturallyarkansas.org](http://www.naturallyarkansas.org)

**A**rkansas Grown is a trademarked/copy-righted logo developed by the Arkansas State Plant Board in cooperation with the University of Arkansas Cooperative Extension Service. The logo's development and use by producers creates the state's branding program for agricultural products. Registered producers can use the logo to signal the quality and freshness of locally produced products as a part of their marketing strategy. Additionally, the logo easily allows consumers to understand their product origins and to support local producers.
