USDA’S FARM SERVICE AGENCY (FSA) OFFERS FARM BILL WEBSITE AND ONLINE OVERVIEW OF FARM BILL PROGRAMS

The Agricultural Act of 2014 (the Act), also known as the 2014 Farm Bill, was signed by President Obama on Feb. 7, 2014. The Act repeals certain programs, continues some programs with modifications, and authorizes several new programs administered by the Farm Service Agency (FSA). Most of these programs are authorized and funded through 2018.

For the latest on 2014 Farm Bill programs administered by FSA, please visit our Farm Bill website at www.fsa.usda.gov/farmbill and for an FSA program overview please read, download and/or print our recently posted FSA Farm Bill Fact Sheet titled, What’s in the 2014 Farm Bill for Farm Service Agency Customers?

For more information on FSA, please contact your local USDA Service Center or visit us online at www.fsa.usda.gov.

COUNTY COMMITTEE (COC) NOMINATION DEADLINE

The election of agricultural producers to Farm Service Agency (FSA) county committees is important to farmers and ranchers. It is crucial that every eligible producer participate in these elections because FSA county committees are a link between the agricultural community and the U.S. Department of Agriculture (USDA).

County committee members are a critical component of the operations of FSA. They help deliver FSA farm programs at the local level. Farmers and ranchers who serve on county committees help with the decisions necessary to administer the programs in their counties. They work to ensure FSA agricultural programs serve the needs of local producers.

FSA county committees operate within official regulations designed to carry out federal laws. County committee members apply their judgment and knowledge to make local decisions.

The COC nomination period runs from June 17, 2014 through August 1, 2014. The nomination form is available at USDA Service Centers and online. For more information contact your local FSA office.

SAVE TIME – MAKE AN APPOINTMENT WITH FSA

As we roll out the Farm Bill programs administered by FSA, there will be related signups and in some cases multiple management decisions that need to be made by you, the producer, in consult with FSA staff. To insure maximum use of your time and to insure that you are afforded our full attention to your important business needs, please call our office ahead of your visit to set an appointment and to discuss any records or documentation that you may need to have with you when you arrive for your appointment. For local FSA Service Center contact information, please visit: http://offices.sc.egov.usda.gov/locator/app.
USDA INVITES SUGGESTIONS FOR THE 2017 CENSUS OF AGRICULTURE

USDA invites suggestions for the 2017 Census of Agriculture that is conducted once every five years by USDA’s National Agricultural Statistics Service (NASS). The Census provides detailed data covering nearly every facet of U.S. agriculture down to the county level.

NASS released the complete 2012 Census of Agriculture results on May 2, 2014. The agency is now planning the content for the 2017 Agriculture Census and is accepting input. Any individual or organization may submit suggestions on questionnaire items to add or delete, as well as any other ideas concerning the Census. There will be another opportunity to provide official comment through the Federal Register process in the coming weeks.

Content suggestions for the 2017 Census will be accepted until August 4, 2014. Comments can be submitted online at www.agcensus.usda.gov/Contact_Us/Census_Program_Input_Form/. Written suggestions may be mailed to: Census Content Team, Room 6451, 1400 Independence Ave, SW, Washington, DC 20250.

To learn more and to access the complete 2012 Census of Agriculture results, including State and County Profiles and all the other Census data and tools, visit www.agcensus.usda.gov.

USDA REMINDS FARMERS OF 2014 FARM BILL CONSERVATION COMPLIANCE CHANGES

Changes mandated through the 2014 Farm Bill require producers to have a Highly Erodible Land Conservation and Wetland Conservation Certification (AD-1026) on file.

For farmers to be eligible for premium support on their federal crop insurance, a completed and signed AD-1026 form must be on file with the FSA. Since many FSA and Natural Resource Conservation (NRCS) programs have this requirement, most producers should already have an AD-1026 on file. If producers have not filed, they must do so by June 1, 2015.

When a farmer completes the AD-1026, FSA and NRCS staff will outline any additional actions that may be required for compliance with the provisions. The Risk Management Agency, through the Federal Crop Insurance Corporation (FCIC), manages the federal crop insurance program that provides the modern farm safety net for American farmers and ranchers.

Since enactment of the 1985 Farm Bill, eligibility for most commodity, disaster, and conservation programs has been linked to compliance with the highly erodible land conservation and wetland conservation provisions. The 2014 Farm Bill continues the requirement that producers adhere to conservation compliance guidelines to be eligible for most programs administered by FSA and NRCS. This includes the new price and revenue protection programs, the Conservation Reserve Program, the Livestock Disaster Assistance programs and Marketing Assistance Loans implemented by FSA. It also includes the Environmental Quality Incentives Program, the Conservation Stewardship Program, and other conservation programs.

FSA recently released a revised form AD-1026, which is available at USDA Service Centers and online at: www.fsa.usda.gov. USDA will publish a rule later this year that will provide details outlining the connection of conservation compliance with crop insurance premium support.
Producers can also contact their local USDA Service Center for information. A listing of service center locations is available at [www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/](http://www.nrcs.usda.gov/wps/portal/nrcs/main/national/contact/local/).

**ANNOUNCES CONSERVATION RESERVE PROGRAM (CRP)**

Beginning June 9, 2014, County Offices are authorized to begin accepting new offers under all CRP Continuous, CREP, Farmable Wetland Program, and SAFE signup types. For contracts expiring on September 30, 2014, participants should contact their local FSA office to determine if they are eligible to re-enroll in the Continuous CRP. Participants should contact their County Office before the contract expires to be eligible to re-enroll.

Under continuous sign-up authority, environmentally sensitive land devoted to certain conservation practices can be enrolled in CRP at any time. Offers are automatically accepted provided the land and producer meet certain eligibility requirements. Unlike CRP enrollments under general sign-up authority, offers for continuous sign-up are not subject to competitive bidding.

The effective date of the CRP contract is the first day of the month following the month of approval. In certain circumstances, producers may defer the effective date for up to six months.

If the acreage is currently under CRP contract and is within one year of the scheduled expiration date, the effective date is Oct. 1 following the expiration date.

To offer land for continuous sign-up, producers should contact their local FSA office.

**Eligible Producers**

A producer must have owned or operated the land for at least 12 months prior to submitting the offer, unless:

- The new owner acquired the land due to the previous owner’s death;
- The ownership change occurred due to foreclosure where the owner exercised a timely right of redemption in accordance with state law or;
- The circumstances of the acquisition present adequate assurance to FSA that the new owner did not acquire the land for the purpose of placing it in CRP.

**Eligible Land**

Land must be cropland that is planted or considered planted to an agricultural commodity four of the previous six crop years from 2008 to 2013, and is physically and legally capable of being planted (no planting restrictions due to an easement or other legally binding instrument) in a normal manner to an agricultural commodity.
Eligible Practices

The land must be eligible and suitable for any of the following conservation practices:

- Riparian buffers;
- Wildlife habitat buffers;
- Wetland buffers;
- Filter strips;
- Wetland restoration;
- Grass waterways;
- Shelterbelts;
- Living snow fences;
- Contour grass strips;
- Constructed wetlands;
- Restoration of aquaculture wetlands;
- Wildlife habitat restoration within approved State Areas for Wildlife Enhancement (SAFE) projects;
- Salt tolerant vegetation or;
- Shallow water areas for wildlife.

Land within an Environmental Protection Agency (EPA)-designated public wellhead area also may be eligible for enrollment on a continuous basis.

Emergency Conservation Program (ECP)

Many Arkansas Counties have been affected by storms and heavy rainfall in 2014. Flooding and Wind damage to Agricultural land has generated the need for assistance. Contact your local County Office to inquire about signing up for this Emergency Conservation assistance.
**Emergency Forest Restoration Program (EFRP)**

Many Arkansas Counties were affected by recent storms. Wind damage to non-industrial private forestland may have generated the need for assistance. Contact your local County Office to inquire about signing up for this Emergency Forest Restoration assistance.

**Tree Assistance Program (TAP) Sign-up Continues**

As of Tuesday, April 15, 2014, orchardists and nursery tree growers who experienced losses from natural disasters that occurred on or after Oct. 1, 2011, can sign up for the Tree Assistance Program (TAP). TAP was authorized by the Agricultural Act of 2014 as a permanent disaster program. TAP provides financial assistance to qualifying orchardists and nursery tree growers to replant or rehabilitate eligible trees, bushes, and vines damaged by natural disasters.

Eligible tree types include trees, bushes or vines that produce an annual crop for commercial purposes. Nursery trees include ornamental, fruit, nut and Christmas trees that are produced for commercial sale. Trees used for pulp or timber are ineligible.

To qualify for TAP, orchardists must suffer a qualifying tree, bush or vine loss in excess of 15 percent mortality from an eligible natural disaster. The eligible trees, bushes or vines must have been owned when the natural disaster occurred; however, eligible growers are not required to own the land on which the eligible trees, bushes and vines were planted.

If the TAP application is approved, the eligible trees, bushes and vines must be replaced within 12 months from the date the application is approved. The cumulative total quantity of acres planted to trees, bushes or vines, for which a producer can receive TAP payments, cannot exceed 500 acres annually.

**USDA Extends Deadline for the Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program**

The enrollment deadline for the 2012 and 2013 emergency assistance for livestock, honeybees, and farm-raised fish program (ELAP) has been extended to August 15, 2014. Originally, program sign-up was scheduled to end August 1, 2014.

The new deadline gives livestock, honeybee, and farm-raised fish producers who experienced losses because of disease, adverse weather, wildfires or colony collapse disorder between October 1, 2011 and September 30 2013, an additional two weeks to enroll in ELAP.

Producers are encouraged to contact their local FSA service center or visit FSA’s website at [www.fsa.usda.gov](http://www.fsa.usda.gov) for additional information regarding ELAP.

**Cross Servicing**

CRFSA personnel are strictly prohibited from working/negotiating with a debtor that has been referred for cross-serving. Debtors must contact Department of the Treasury, directly, at 888-826-3127.
**USDA Notifies Producers on Acreage History and Yields**

Written notifications from USDA are underway to farmers that provide updates on their current base acres, yields, and 2009-2012 planting history.

Please cross check the letter from USDA with your farm records. If the information is correct, no further action is needed at this time, but if our letter is incomplete or incorrect, contact your local FSA office as soon as possible.

Verifying the accuracy of data on a farm’s acreage history is a required early step for enrolling in the upcoming Agriculture Risk Coverage (ARC) program and the Price Loss Coverage (PLC) program. Later this summer, farmers and ranchers will have an opportunity to update their crop yield information and reallocate base acres.

By mid-winter all producers on a farm will be required to make a one-time, unanimous and irrevocable election between price protection and county revenue protection or individual revenue protection for 2014-2018 crop years. Producers can expect to sign contracts for ARC or PLC for the 2014 and 2015 crop years in the spring of 2015.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (includes short grain rice and temperate japonica rice), safflower seed, sesame, soybeans, sunflower seed, and wheat. Upland cotton is no longer a covered commodity.

Visit [www.fsa.usda.gov](http://www.fsa.usda.gov) or the local FSA office for information about FSA and the 2014 Farm Bill programs.

**Margin Protection Program for Dairy Producers**

The 2014 Farm Bill authorized the Margin Protection Program (MPP-Dairy) for dairy producers. The new, voluntary risk management program replaces the Milk Income Loss Contract (MILC) program which expires on Sept. 30, 2014.

MPP-Dairy offers protection to dairy producers when the difference (the margin) between the all-milk price and national average feed cost falls below a certain producer selected amount.

Eligible producers may purchase coverage for their dairy operation by paying an annual administrative fee of $100 and a premium, as applicable, for higher levels of coverage. Producers in the dairy operation will have to select a desired coverage level ranging from $4.00 to $8.00, in $0.50 increments and a desired coverage percentage level ranging from 25 to 90 percent, in 5 percent increments. Producers will also have to decide whether or not to participate in the MPP-Dairy Program or the Livestock Gross Margin program administered by the Risk Management Agency (RMA), but they will not be allowed to participate in both.

A decision tool will be made available in the fall of 2014 to help producers make coverage level decisions. Enrollment will also begin this fall. Dairy operators will establish their production history during signup. Verification of the production records will be required. The regulations for
MPP-dairy are still being developed. Additional information will be provided as it becomes available.

**USDA Farm Service Agency (FSA) Announces Online Hay and Grazing Acres Locator Tool**

For many years, FSA's *Hay Net* website www.fsa.usda.gov/haynet has been the "go to" online resource for agricultural producers to list information concerning the need for hay or the availability of hay.

Now, in response to requests from livestock producers and landowners, FSA has expanded the site to include the option to list a need for grazing acres or to list acres available for grazing.

If, due to extenuating circumstances, producers are in need of hay and/or grazing acres to support livestock, please use *Hay Net* to post an advertisement seeking these resources. Likewise, landowners who have hay and/or grazing acres available for livestock producers should post a Hay Net advertisement as well.

A few things to remember when using the *Hay Net* website:

- There is a one-time registration process that should be completed by all users who want to post an ad online.
- Users who just want to browse ads DO NOT NEED to have an eAuthentication user id.
- Hay and grazing acre ads will be automatically removed after a period of 13 months.
- Please help your fellow farmer and rancher by keeping ads current and up to date and remove ads you no longer need or want advertised on *Hay Net*. Please, no corporate advertisements on this site.

*Hay Net* is brought to you by FSA as a public service. The sole purpose of this online resource is to provide a site for the exchange of information. FSA does not endorse, guarantee, or otherwise make representations of any kind regarding any user of this site and FSA is not responsible for defining the terms of grazing agreements or lease contracts.

For more information about *Hay Net* and other FSA services and programs, please contact your local FSA office. For local FSA Service Center contact information, please visit: http://offices.sc.egov.usda.gov/locator/app.

**USDA Announces New Support for Beginning Farmers and Ranchers**

*Department Implementing New Farm Bill Programs, Unveiling New Centralized Online Resource to Support Next Generation of Farmers*

USDA has announced the implementation of new Farm Bill measures and other policy changes to improve the financial security of new and beginning farmers and ranchers. USDA also unveiled www.USDA.gov/newfarmers, a new website that will provide a centralized, one-stop...
resource where beginning farmers and ranchers can explore the variety of USDA initiatives designed to help them succeed.

USDA’s [www.usda.gov/newfarmers](http://www.usda.gov/newfarmers) has in depth information for new farmers and ranchers, including: how to increase access to land and capital; build new market opportunities; participate in conservation opportunities; select and use the right risk management tools; and access USDA education, and technical support programs. These issues have been identified as top priorities by new farmers. The website will also feature instructive case studies about beginning farmers who have successfully utilized USDA resources to start or expand their business operations.

Today’s policy announcements in support of beginning farmers and ranchers include:

- Waiving service fees for new and beginning farmers or ranchers to enroll in the Non-Insured Crop Disaster Assistance Program (NAP) for the 2014 crop year. NAP provides risk management tools to farmers who grow crops for which there is no crop insurance product. Under this waiver, announced via an [official notice](http://www.usda.gov/newfarmers) to Farm Service Agency offices, farmers and ranchers whom already enrolled in NAP for the 2014 crop year and certified to being a beginning farmer or social disadvantaged farmer are eligible for a service fee refund.

- Eliminating payment reductions under the Conservation Reserve Program (CRP) for new and beginning farmers which will allow routine, prescribed, and emergency grazing outside the primary nesting season on enrolled land consistent with approved conservation plans. Previously, farmers and ranchers grazing on CRP land were subject to a reduction in CRP payments of up to 25 percent. Waiving these reductions for new and beginning farmers will provide extra financial support during times of emergency like drought and other natural disasters.

- Increasing payment rates to beginning farmers and ranchers under Emergency Assistance for [Livestock, Honeybees, and Farm-Raised Fish Program (ELAP)](http://www.usda.gov/newfarmers). Under this provision, beginning farmers can claim up 90 percent of losses for lost livestock, such as bees, under ELAP. This is a fifty percent increase over previously available payment amounts to new and beginning farmers.

In the near future, USDA will also announce additional crop insurance program changes for beginning farmers and ranchers – including discounted premiums, waiver of administrative fees, and other benefits.
NEW FARM BILL OFFERS INCREASED OPPORTUNITIES FOR PRODUCERS

The 2014 Farm Bill offers increased opportunities for producers including farm loan program modifications that create flexibility for new and existing farmers. A fact sheet outlining modifications to the U.S. Department of Agriculture’s (USDA) Farm Service Agency (FSA) Farm Loan Programs is available at http://fsa.usda.gov/FSA/newsReleases?area=newsroom&subject=landing&topic=pfs&newstype=prfactsheet&type=detail&item=pf_20140324_insup_en_fbill.html

The Farm Bill expands lending opportunities for thousands of farmers and ranchers to begin and continue operations, including greater flexibility in determining eligibility, raising loan limits, and emphasizing beginning and socially disadvantaged producers.

Changes that will take effect immediately include:

- Elimination of the 15 year term limit for guaranteed operating loans.
- Modification of the definition of beginning farmer, using the average farm size for the county as a qualifier instead of the median farm size.
- Modification of the Joint Financing Direct Farm Ownership Interest Rate to 2 percent less than regular Direct Farm Ownership rate, with a floor of 2.5 percent. Previously, the rate was established at 5 percent.
- Increase of the maximum loan amount for Direct Farm Ownership Down Payment Loan Program from $225,000 to $300,000.
- Elimination of rural residency requirement for Youth Loans, allowing urban youth to benefit.
- Debt forgiveness on Youth Loans, which will not prevent borrowers from obtaining additional loans from the federal government.
- Increase of the guaranteed percentage on Conservation Loans from 75 to 80 percent and 90 percent for socially disadvantaged borrowers and beginning farmers.
- Microloans will not count toward direct operating loan term limits for veterans and beginning farmers.

Additional modifications must be implemented through the rulemaking processes. Visit the FSA Farm Bill website for detailed information and updates to farm loan programs.

LIVESTOCK DISASTER ASSISTANCE SIGN-UP UNDERWAY

Livestock disaster program enrollment opened on April 15, 2014. These disaster programs are authorized by the 2014 Farm Bill as permanent programs and provide retroactive authority to cover losses that occurred on or after Oct. 1, 2011.

To expedite applications, all producers who experienced losses are encouraged to bring records documenting those losses to their local FSA Office. Producers should record all pertinent information of natural disaster consequences, including:

- Documentation of the number and kind of livestock that have died, supplemented if possible by photographs or video records of ownership and losses
- Dates of death supported by birth recordings or purchase receipts
• Costs of transporting livestock to safer grounds or to move animals to new pastures
• Feed purchases if supplies or grazing pastures are destroyed
• Crop records, including seed and fertilizer purchases, planting and production records

Eligible producers can sign-up for the following livestock disaster assistance programs:

**LIVESTOCK FORAGE DISASTER PROGRAM (LFP):**

LFP provides compensation to eligible livestock producers that have suffered grazing losses due to drought on privately owned or cash leased land or fire on federally managed land. Eligible producers must physically be located in a county affected by a qualifying drought during the normal grazing period for the county. Producers who suffered eligible grazing losses should submit a completed CCC-853 and supporting documentation by January 30, 2015.

**ANNOUNCES LIVESTOCK IDENTITY PROGRAM (LIP)**

LIP provides compensation to eligible livestock producers that have suffered livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. Producers who suffered livestock death losses should submit a notice of loss and an application for payment to their local FSA office by January 30, 2015.

**EMERGENCY ASSISTANCE FOR LIVESTOCK, HONEYBEES, AND FARM RAISED-FISH PROGRAM (ELAP)**

ELAP provides emergency assistance to eligible producers of livestock, honeybees and farm-raised fish that have losses due to disease, adverse weather, or other conditions, such as blizzards and wildfires. ELAP assistance is provided for losses not covered by LFP and LIP. Producers who suffered eligible livestock, honeybee or farm-raised fish losses during 2012 and 2013 program years must submit a notice of loss and application for payment to their local FSA office by August 1, 2014. For 2014 program year losses, the notice of loss and an application for payment must be submitted by November 1, 2014.

For more information, producers can review the LFP, LIP and ELAP Fact Sheets on the Farm Bill webpage. Producers are encouraged to make an appointment with their local FSA office to apply for these programs.

**USDA ANNOUNCES CHANGES TO FRUIT, VEGETABLE AND WILD RICE PLANTING RULES**

Farm Service Agency (FSA) has announced fruit, vegetable and wild rice provisions that affect producers who intend to participate in certain programs authorized by the Agricultural Act of 2014.
Producers who intend to participate in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) programs are subject to an acre-for-acre payment reduction when fruits and nuts, vegetables or wild rice are planted on the payment acres of a farm. Payment reductions do not apply to mung beans, dry peas, lentils or chickpeas. Planting fruits, vegetables or wild rice on acres that are not considered payment acres will not result in a payment reduction. Farms that are eligible to participate in ARC/PLC but are not enrolled for a particular year may plant unlimited fruits, vegetables and wild rice for that year but will not receive ARC/PLC payments for that year. Eligibility for succeeding years is not affected.

Planting and harvesting fruits, vegetables and wild rice on ARC/PLC acreage is subject to the acre-for-acre payment reduction when those crops are planted on either more than 15 percent of the base acres of a farm enrolled in ARC using the county coverage or PLC, or more than 35 percent of the base acres of a farm enrolled in ARC using the individual coverage.

Fruits, vegetables and wild rice that are planted in a double-cropping practice will not cause a payment reduction if the farm is in a double-cropping region as designated by the USDA’s Commodity Credit Corporation.

**Filing for NAP Losses**

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP) and crop insurance, you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

**2014 MAL and LDP Requests**

The USDA Farm Service Agency (FSA) is accepting requests for marketing assistance loans (MALs) and loan deficiency payments (LDPs) for eligible 2014 commodities.

MALs and LDPs for the 2014 crop year become available to eligible producers beginning with harvest/shearing season and extending through a specific commodity’s final loan availability date. Sugar commodity loans for the 2014 crop will be available to sugar processors beginning Oct. 1, 2014.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool, mohair and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.
The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed $125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds $900,000 is not eligible to receive an MLG or LDP.

National and county loans rates for 2014 crops are posted on the FSA website at: www.fsa.usda.gov/pricesupport.

For more information, please visit a nearby USDA Service Center or FSA’s website www.fsa.usda.gov.

The AGI verification and compliance reviews for 2009, 2010, 2011, 2012 and 2013 are conducted on producers who the IRS indicates may have exceeded the adjusted gross income limitations described in [7 CFR 1400.500]. Based on this review, producers will receive determinations of eligibility or ineligibility.

If the producer is determined to have exceeded the AGI limitation of $500,000 of nonfarm income, $750,000 of farm income, $1 million of conservation program benefits or the $1 million total AGI, then receivables will be established for payments earned directly or indirectly by the producer subject to the applicable limitation. The Arkansas FSA State Office will begin notifying producers selected for review next month. If you have any questions about the review process or determination, please contact the Arkansas FSA State Office at 501-301-3007. Producers who receive initial debt notification letters may only appeal the amount of the debt to their local FSA office. Adverse determinations become administratively final if not timely appealed and can only be reopened if exceptional circumstances exist that prevented the producer from timely filing the appeal.

**USDA ENHANCES FARM STORAGE FACILITY LOAN PROGRAM**

The U.S. Department of Agriculture (USDA) today announced the expansion of the Farm Storage and Facility Loan program, which provides low-interest financing to producers. The enhanced program includes 22 new categories of eligible equipment for fruit and vegetable producers.

Producers with small and mid-sized operations, and specialty crop fruit and vegetable growers, now have access to needed capital for a variety of supplies including sorting bins, wash stations and other food safety-related equipment. A new more flexible alternative is also provided for determining storage needs for fruit and vegetable producers, and waivers are available on a case-by-case basis for disaster assistance or insurance coverage if available products are not relevant or feasible for a particular producer.
Additionally, Farm Storage Facility Loan security requirements have been eased for loans up to $100,000. Previously, all loans in excess of $50,000 and any loan with little resale value required a promissory note/security agreement and additional security, such as a lien on real estate. Now loans up to $50,000 can be secured by only a promissory note/security agreement and some loans between $50,000 and $100,000 will no longer require additional security.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include grains, oilseeds, peanuts, pulse crops, hay, honey, renewable biomass commodities, fruits and vegetables. Qualified facilities include grain bins, hay barns and cold storage facilities for fruits and vegetables.

Contact your local FSA office or visit www.fsa.usda.gov for more about FSA programs and loans, including the Farm Storage Facility Loan Program.

**Actively Engaged**

USDA has amended the rules that govern the requirements to be ‘actively engaged’ in farming. These rules apply to eligibility for payments under the Direct and Counter-cyclical Program (DCP) or Average Crop Revenue Election (ACRE) program administered by FSA.

Normally the stockholder or a member of a legal entity **must** make contributions of active personal labor and/or active personal management for the farming operation. The contributions are to be performed on regular basis, must be identifiable, and separate from the contributions of others.

The exception to this rule for a stockholder or member of a legal entity only occurs when both of the following apply:

- At least half of the interest in the legal entity is held by stockholders or members who are providing active personal labor or active personal management;
- The total direct payments received by the legal entity and each of the members can’t exceed $40,000.

**Compliance Spot Checks**

Compliance spot checks will be conducted on 2014 crops. Instead of locally selecting farms, contracts, deficiency loans, etc. for review, a nationwide selection of producers is employed. Spot check selections are to be conducted based on a producer’s participation in Conservation Reserve Program, Direct and Counter-cyclical Program, Loan Deficiency Program, etc. For more information about the spot check selection procedure, feel free to contact your local Farm Service Agency office for additional clarification.
Unauthorized Disposition of Grain

If loan grain has been disposed of through feeding, selling or any other form of disposal without prior written authorization from the county office staff, it is considered unauthorized disposition. The financial penalties for unauthorized dispositions are severe and a producer’s name will be placed on a loan violation list for a two-year period. Always call before you haul any grain under loan.

Foreign Buyers Notification

The Agricultural Foreign Investment Disclosure Act (AFIDA) requires all foreign owners of U.S. agricultural land to report their holdings to the Secretary of Agriculture. The Farm Service Agency administers this program for USDA.

All individuals who are not U.S. citizens, and have purchased or sold agricultural land in the county are required to report the transaction to FSA with 90 days of the closing. Failure to submit the AFIDA form (FSA-153) could result in civil penalties of up to 25 percent of the fair market value of the property. County government offices, Realtors, attorneys and others involved in real estate transactions are reminded to notify foreign investors of these reporting requirements.

Preventing Fraud

The Farm Service Agency supports the Risk Management Agency in the prevention of fraud, waste and abuse of the Federal Crop Insurance Program. FSA has been, and will continue to, assist RMA and insurance providers by monitoring crop conditions throughout the growing season. FSA will continue to refer all suspected cases of fraud, waste and abuse directly to RMA. Producers can report suspected cases to the FSA office, RMA, or the Office of the Inspector General.

USDA Announces the Extension of the Milk Income Loss Contract Program for 2014

The USDA Farm Service Agency (FSA) recently announced the extension of the Milk Income Loss Contract (MILC) program which protects dairy farmers against income loss through Sept. 1, 2014, or until a new Margin Protection Program for dairy producers (MPP) is operational. Contracts for eligible producers enrolled in MILC on or before Sept. 30, 2013, are automatically extended until the termination date of the MILC program. Dairy operations with approved MILC contracts will continue to receive monthly payments if a payment rate is in effect. MILC compensates enrolled dairy producers when the Boston Class I milk price falls below $16.94 per hundredweight (cwt), after adjustment for the cost of dairy feed rations. MILC payments are calculated each month using the latest milk price and feed cost, just as in the 2008 Farm Bill. The payment rate for October 2013 through January 2014 marketings is zero. Payment rates during the months after January 2014 until the termination of the MILC program will be determined as the appropriate data becomes available.
FSA will provide producers with information on program requirements, updates and sign-ups as the information becomes available.

**DAIRY INDEMNITY PAYMENT PROGRAM**

The 2014 Farm Bill authorized the extension of the Dairy Indemnity Payment Program (DIPP) through September 30, 2018. DIPP provides payments to dairy producers and manufacturers of dairy products when they are directed to remove their raw milk or products from the market because of contamination.

**MICROLOAN PROGRAM**

The Farm Service Agency (FSA) developed the Microloan (ML) program to better serve the unique financial operating needs of beginning, niche and small family farm operations.

FSA offers applicants a Microloan designed to help farmers with credit needs of $35,000 or less. The loan features a streamlined application process built to fit the needs of new and smaller producers. This loan program will also be useful to specialty crop producers and operators of community supported agriculture (CSA).

Eligible applicants can apply for a maximum amount of $35,000 to pay for initial start-up expenses such as hoop houses to extend the growing season, essential tools, irrigation and annual expenses such as seed, fertilizer, utilities, land rents, marketing, and distribution expenses. As financing needs increase, applicants can apply for a regular operating loan up to the maximum amount of $300,000 or obtain financing from a commercial lender under FSA’s Guaranteed Loan Program.

Individuals who are interested in applying for a microloan or would like to discuss other farm loan programs available should contact their local FSA office to set up an appointment with a loan official.

**GUARANTEED LOAN ELIGIBILITY**

Changes to FSA regulations have removed Guaranteed Operating Loan term limits. Previous and current guaranteed loan borrowers who were not eligible for further guaranteed loans due to the previous 15 year eligibility term limit may now be eligible for further guaranteed loans through their commercial lender.

**YOUTH LOANS**

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is $5000.
**Youth Loan Eligibility Requirements:**
- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA’s general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.

**BEGINNING FARMER LOANS**

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county’s average size farm.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit [www.fsa.usda.gov](http://www.fsa.usda.gov).

**LOANS FOR THE SOCIALY DISADVANTAGED**

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, the FSA has provided priority funding for members of socially disadvantaged applicants.

A socially disadvantaged applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, socially disadvantaged groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.
**LAND CONTRACT (LC) GUARANTEES**

The Land Contract (LC) Guarantee Program is a valuable tool to transfer farm real estate to the next generation of farmers and ranchers. Guarantees will be offered to the owner of a farm who wishes to sell real estate through a land contract to a beginning or socially disadvantaged farmer or rancher. The guarantee reduces the financial risk to the seller.

FSA offers two types of guarantees:

- **Prompt Payment Guarantee** - A guarantee up to the amount of three amortized annual installments plus the cost of any related real estate taxes and insurance.
- **Standard Guarantee** - A guarantee of 90 percent of the outstanding principal balance under the land contract.

The guarantee period is 10 years and the contract payments must be amortized for a minimum of 20 years. The purchase price of the farm cannot exceed the lesser of $500,000 or the market value of the property.

For additional information you can read the [Land Contract Guarantee Program Fact Sheet](http://www.usda.gov/fedsfeedfamilies).

**USDA KICKS OFF THE 2014 "FEDS FEED FAMILIES" NATIONWIDE FOOD DRIVE**

USDA kicked off the 6th annual Feds Feed Families Campaign on June 2, 2014.

The food drive is an annual event in which Federal employees, nationwide, collect food for distribution by food banks, food pantries, and shelters.

The Feds Feed Families program started in 2009. The 2014 food drive officially began on June 2 and will run through August 27.

All Federal agencies across the country participate in the campaign and Federal employees are asked to donate non-perishable food items throughout the summer. Donations are given to local food banks across the country – having a positive impact to help food banks address food insecurity. Secretary Vilsack noted that the latest USDA estimates show that in 2012, food insecurity affected 14.5 percent of American households at some point.

If you are interested in making a donation to the annual "Feds Feed Families" Food Drive, please contact your local USDA Service Center.

For more information on the Feds Feed Families campaign, please visit: [http://www.usda.gov/fedsfeedfamilies](http://www.usda.gov/fedsfeedfamilies).
**Know Your Farmer, Know Your Food**

The *Know Your Farmer, Know Your Food* (KYF2) initiative is a USDA-wide effort focused on strengthening local and regional food systems.

In recent years, consumers have shown an increased interest in purchasing locally-produced foods and many farmers and ranchers followed the trend and offer fresh foods through local markets.

USDA followed suit, developing KYF2, which helps connect consumers with producers in their community. USDA offers a wide range of programs that can assist farmers, ranchers, businesses, communities and individuals. To learn more about grants, loans and support that is available, visit [http://www.usda.gov/wps/portal/usda/usdahome?navid=KYF_GRANTS](http://www.usda.gov/wps/portal/usda/usdahome?navid=KYF_GRANTS).

These USDA programs stimulate economic development in agricultural communities, foster new opportunities for farmers and ranchers, promote locally and regionally grown and processed foods, cultivate healthy eating habits and educated consumers, expand access to affordable fresh and local food and develop a connection between food, agriculture, community and the environment.
