TIPS FOR EVERY AISLE
Get the most from your food dollar

Use these tips to fill your cart with budget-friendly and healthy options from each food group.

**Fruits and Vegetables**

Buy “in season” produce. They are usually less expensive and are at their peak flavor.

Try buying canned. Choose fruit canned in 100% fruit juice and vegetables with “low-sodium” or “no salt added” on the label.

If you have freezer space, buy frozen vegetables without added sauces or butter.

**Grains**

Make half your grains whole grains. Check the ingredient list on packages, and pick the foods that have a whole grain listed first.

Whole grains include whole wheat, brown rice, bulgur, buckwheat, oatmeal, whole-grain cornmeal, whole oats and whole rye.

Rice and pasta are budget-friendly grain options.

**Protein Foods**

Some great low-cost choices include beans and peas, such as kidney beans, black beans, split peas, and lentils. Use these good sources of protein for main or side dishes.

Choose lean meats like chicken or turkey. When choosing ground beef, make sure it’s lean ground beef. Skip processed meats like sausage, hot dogs and bologna. They are high in fat and sodium.

Don’t forget about eggs! They are a low-cost option that’s easy to prepare.

**Dairy Foods**

Choose low-fat or fat-free milk. They provide just as much calcium and other nutrients, and have fewer calories than whole and 2% milk.

Buy the larger size of low-fat yogurt instead of individual flavored yogurts. Then add your own flavors by mixing in fruits.

Always check the sell by date to make sure you’re buying the freshest dairy products.
