

**Forage, Feed and Grazing Restrictions  
for Soybean Herbicides**

| <b>Herbicide</b>                      | <b>Restrictions</b>  |
|---------------------------------------|--|
| Assure II                             | Do not graze treated fields or harvest for forage or hay. Do not apply within 80 days of harvest.  |
| Authority MTZ                         | Do not graze or harvest for forage or hay.   |
| Basagran                              | No restrictions on label.  |
| Broadstrike + Dual or Treflan, Python | Do not graze or feed treated soybean forage, hay or straw to livestock.  |
| Butyrac/Butoxone (2,4-DB)             | Do not graze or feed soybean hay within 60 days after application of a 2,4-DB tank-mix application. Do not harvest soybeans within 60 days after spray application.  |
| Canopy                                | Do not graze treated fields or harvest for forage or hay.  |
| Classic                               | Do not graze treated fields or harvest for forage or hay. Do not apply later than 60 days before soybean maturity.   |
| Cobra                                 | Do not graze animals on green forage or stubble. Do not utilize hay or straw for animal feed or bedding. Apply not later than 90 days before harvest.                |
| Dual Magnum                           | No restrictions on label.  |
| FirstRate                             | Do not harvest for forage or hay for 25 days.  |
| Fusilade DX, Fusion                   | Do not graze or harvest for forage or hay.   |
| Glufosinate                           | Do not feed green soybean plants to livestock.   |
| Glyphosate                            | Do not harvest or feed treated crops for 8 weeks after application. Allow 14 days following spot treatment or selective equipment before grazing domestic livestock. |
| Metribuzin                            | Treated vines* may be grazed or fed to livestock 40 days after application.  |
| Outlook                               | Do not graze or feed forage, hay or straw to livestock.  |

| <b>Herbicide</b>             | <b>Restrictions</b>  |
|------------------------------|--|
| Paraquat                     | Do not graze treated areas or feed treated forage to livestock.  |
| Poast/<br>Poast Plus         | Do not graze treated fields and do not feed treated soybean forage (green succulent) or ensilage to livestock. Treated soybean hay may be fed. Do not apply to soybeans within 90 days of harvest. |
| Prowl                        | Livestock <i>can</i> graze or be fed soybean forage from treated fields.   |
| Pursuit                      | Do not graze or feed treated soybean forage, hay or straw to livestock. There should be an interval of at least 85 days between an application of Pursuit and soybean harvest.                     |
| Python                       | Do not graze or harvest for forage or hay.   |
| Reflex/Flexstar/<br>Sinister | Do not graze treated areas or harvest for forage or hay. Do not graze rotated small grain crops or harvest for livestock forage or straw. Do not apply after first bloom.                          |
| Resource                     | Do not graze or harvest for forage or hay.   |
| Select/TapOut                | Do not graze treated fields or feed treated forage or hay to livestock.  |
| Storm                        | Do not use treated plants for feed or forage. Do not apply within 50 days of harvest.  |
| Surveil                      | Do not graze or harvest for forage or hay.   |
| Synchrony                    | Do not graze treated fields or harvest for forage or hay. Do not apply later than 60 days before soybean maturity.   |
| Treflan                      | No restrictions on label.  |
| Trivence                     | Do not graze or harvest for forage or hay.   |
| Typhoon                      | Do not graze or harvest for forage or hay.   |
| Ultra Blazer                 | Do not use treated plants for feed or forage.  |
| Valor                        | Do not graze or harvest for forage or hay.   |
| Warrant                      | Do not graze or feed for 60 days.  |
| Zidua/Anthem                 | Do not graze or feed for 37 days.  |

Restrictions are listed as worded on the labels. Feeding and application restrictions for herbicides are generally based on residue tolerances allowed for animal feeding. The restrictions are generally not due to acute toxicity (poisoning) problems. Livestock that are accidentally fed treated crops earlier than allowed will not be harmed, but may have illegal pesticide residues in their meat or milk. If you have fed livestock treated crops within the restricted period, refer to the label, your dealer or herbicide company representative for more information.

\* Many labels refer to soybean plants as 'vines'.
