Follow-up postemergence spray will be necessary to achieve these ratings.

**Red rice ratings with Poast. Fusilade and Assure can be increased if repeat applications used.
**Rhizome johnsongrass ratings with Treflan and Prowl increased to 7 if 2x rate used.

1) Glyphosate-resistant populations of Palmer amaranth, horseweed, johnsongrass, giant ragweed, common ragweed and nygergrass have been found in Arkansas. Expect reduced control with most PPO herbicides containing flumioxazin (Valor), sulflurazon (Authority) or fomesafen (Reflex) when used alone.

Rating Scale: 0 = No Control
10 = 100% Control
Dash = insufficient data
