Date: 10-7-16

Subject: National Cyber Security Awareness Month - Week 1, Day 5 - Top three online threats-what can harm our kids

Attachments: None

Lance Spitzner, Director, SANS – Securing the Human, provides an overview of the basic challenges parents face in securing today’s online kid. Follow the link below to watch the CyberSafety video.

You are encouraged to share these materials with others, including your family, friends and neighbors. If you have any questions about our activities in October or suggestions on how to improve our cybersecurity efforts, please contact your CyberSecurity Team.
