You may not realize it, but you are a target for cyber criminals. Your computer, your mobile devices, your accounts and your information all have tremendous value.

The attached poster demonstrates the many different ways cyber criminals can make money by hacking you.

There is no web link available for the attached poster.

You are encouraged to share these materials with others, including your family, friends and neighbors. If you have any questions about our activities in October or suggestions on how to improve our cyber security efforts, please contact your CyberSecurity Team.
