

Communications Project

Communications Project – Publicizes County 76. Maintains/updates the C76 PowerPoint Presentation as needed, which is available for use at trainings, seminars, county monthly meetings and other master gardener events; develops guidelines for website, social media, signage and connections with county contacts; and creates workshop survey to determine current areas of interest and possible locations.

The MG Calendar, *Garden Voice*, County Contact List, and Speakers' Bureau are all Committees of the Communications Project.
